ONE *Solution* | ENDLESS *Possibilities*

Along with helping our clients procure Destination Management services worldwide for their in-person programs, we can also support your **HYBRID** and **VIRTUAL** program needs through our extensive network of expert partners. With your dedicated GDP Sales Advisor with you from the idea stage and sourcing, through program execution and evaluation, we are committed and dedicated to the clients we serve, and more importantly, passionate about providing the highest level of service and quality to the global planning community.

IN-PERSON

Our vetted network of elite DMCs serve over 500 locations around the globe, giving you access to all the options – from the more traditional to the more unique – that are currently available in their destination as the landscape continues to change and evolve. While each hotel, venue and destination might have its own specific measures in place, DMCs can help provide an overall strategy to make sure every attendee stays safe and healthy at your event.

HYBRID

Gatherings with both in-person and virtual elements are here to stay for the midterm and possibly long-term. Along with ensuring the highest levels of health, safety, and sanitation, your team will not have to travel to any locations as our DMCs will be your feet on the ground at each site. Furthermore, we can assist with which virtual platform and ideas will be the best fit for the digital portion to enhance attendee engagement.

VIRTUAL

Whether you need help selecting the right platform for your virtual event, or you are looking for attendee engagement ideas for a custom digital experience, we have solutions across our 65+ DMCs and event partners. Along with helping you bring together your attendees virtually, our unique global edge gives you even more options in the virtual world, such as access to virtual cultural experiences, streamlining the gifting and kitting process, and more!

MORE THAN DMCs

We are far more than just a collection of top DMCs, we're a gateway to reliable trusted event providers and innovative solutions around the globe. Through our strategic event partners, we have expanded our services to better serve our client's ever-growing program needs, especially in the virtual/digital space.
