Shipping and handling

Note as from 01/09/2006 there is a slight adjustment in US Inland shipping charge to level with the recent USPS and UPS increases as follows :

- . Order from \$ 0.01 - \$9.99 fixed \$ 5.00
- . Order from \$10.00 - \$49.99 fixed \$ 8.00
- . Order from \$50.00 - \$99.00 fixed \$10.00
- . Order from \$100.00 up free by normal ground shipping method.
- . Oversea order customers pay the net shipping cost of choice, no handling charges.

1. **For US customers only** : The fixed minimum shipping and handling charges per order is non-refundable conditional (see #2 below), by regular mail. We shall pay the shipping cost for replacements by regular mail should you receive wrong or defective items.
2. Certain heavy articles like liquid formulas which have weight-over-value criteria, in this case customers are to pay for the net shipping charge of the order with no additional handling charges.
3. All merchandise will normally be shipped by regular mail. We can ship them by UPS, Federal Express or Priority mail, customers are responsible for only the NET additional shipping cost.
4. **Overseas orders** (away from US mainland) : Customers pay for the net shipping charge whichever shipping method is chosen by customers with no additional handling charges. We can only provide the actual charge by email to customers after we receive the order as we have to do our calculations per order. We process the order only after we receive the additional shipping charge from overseas orders. Customers can also send us an email of intent before actually placing an order so that we can calculate the shipping charge.
5. We keep track of oversea orders to as far as the US pickup points and we have no control of the merchandise once it reaches many oversea countries. Customers are hereby advised to be aware of the situations and the risks because this is situation beyond our control and we cannot guarantee delivery in these certain countries. Many central and south American countries in particular are in this category of high risk when merchandise are sent by regular post office mail. UPS and some special agencies offer secured delivery at higher cost which customers have to specify when order and pay for the net shipping charge. Customers can ask for insurance coverage if necessary.

Huaihua Longyuan Medicine Export Company is not only a managing company for Chinese herbs, but also a national licensed export company. We have a staff of 300 professionals, and distribute about 800 kinds of raw herbs. Our company has successfully passed the international standard assessment of quality control of medications, GSP ([Click here to see the GSP Certificate](#)). We are the biggest herbal company among the surrounding five provinces in mid-south China. We also have our own specialized farms to produce some commonly used raw herbs, such as honeysuckle, gastrodia, poria, magnolia bark, etc. Our former Chinese Premier Mr. Zhu Rongji once visited our company and gave great appreciation to our green mountain herbal farm. Also, this important farm in south China has passed the international standard assessment, GIP. In the past few years, we have gained international clients from over 200 countries who trust and rely on our faithful service. Also the raw herbs could be offered in powder form or capsule form.

Prepared Pongolin Scales/ Prepared Squama Manitis/ Prepared Chuan shan jia/ Prepared shan jia

[Abstract]

It is the scutes of *Manis pentadactyla* Linnaeus, family Cyprinidae. The scutes of the tail have the most medicinal actions, and those produced in Guangxi are of the best quality. Caught all year round, it is killed and put into boiling water, to be scalded slightly. The scute is taken, washed clean and dried in the sunshine to be utilized in its raw form. Also it can be scalded with sand, until it heaves. Then it is washed clean and dried, or quenched with vinegar after being baked and pounded to pieces, at this time it is ready to be used as a medicine.

[Medicinal Properties]

It is salty in flavour, slightly cold in nature. It acts on stomach and liver channels with character of moving and penetrating. It is good at dispersing and promoting Qi circulation. Being salty for softening and resolving hard mass, it can promote blood circulation, relieve blood stasis, clear channels and resolve mass in the abdomen. It is usually used to treat amenorrhea due to blood stasis and abdominal mass. In addition it can clear the mammary ducts to promote lactation and is used to treat postpartum agalactosis. Owing to its property of moving and penetrating, dispersing, and promoting the circulation of Qi, it can be used to treat swelling and pain due to carbuncle with the effect of subduing swelling and draining pus.

[Medicinal Efficacies]

Activate blood and remove mass; open meridians, promote lactation; treat swelling and expel pus.

[Modern Medical Functions]

[Actions and Indications]

It is used to promote lactation, hastens boils to be ripen, expels pus, stop pain, pain in the joints of lower limbs, chronic malaria, rid of parasites, unblocks menstruation, undo yu (blood stasis), acute mastitis, ridding of wind dampness bi.

[Clinical Applications]

1. Mass and amenorrhea: To treat mass, it can be combined with Biejia, Dahuang and Chishao, such as in the Chuangshanjia Powder. In case of amenorrhea due to blood stasis, it is used to together with Danggui, Honghua and Taoren, such as, in the Huayu Decoction.
2. Bi-syndrome pain of wind and damp and paralysis due to wind stroke: To treat Bi-syndrome pain of wind-damp, joint problem, numbness and convulsions, it is usually combined with Chuanxiong, Qianghuo and Baihuashen. In order to treat paralysis due to wind stroke and hands and feet inabilities, it may be ground into powder and mixed with Chuanwu, for external application, such as, in the Chenfeng Paste.
3. Postpartum agalactia: It can be taken alone, ground into powder and infused with liquor, as in Yongquan Powder, or combined together with Wangbulixing, Mutong and Huangqi. To treat poor lactation due to insufficiency of qi and blood, it can be combined with Huangqi, Dangshen and Danggui. While for agalactia and distending pain in the breast due to stagnation of liver qi, it is combined with Danggui, Chaihu and Chuanxiong, for example, in the Xiaru Yongquan Powder.

[Samples of Formulae]

1. To promote lactation: chuan shan jia (stir fry with sand), dang gui, jie geng, shao yao, mu tong, fu ling, chuan xiong, tian hua fen equal parts. Use 50 g per day. Make decoction with 500 cc of water. Simmer till 200 c.c. Make into one day dose. Make into 3 servings.
2. For chronic skin ulceration with pus: chuan shan jia 10 g, bai zhi 5 g, zao jiao ci 8 g, huang qi 6 g, dang gui 6 g. Per day dose. Make decoction with 600 cc of water. Simmer till 200 c.c. Make into 3 servings.

[Usage and Dosage]
Raw herb **3-10g/time**. For the powder form, 1-1.5 is taken orally.

[Toxicity and Cautions]
Not to use during pregnancy. Use with caution in cases of xu (deficiency) and sores have been ripen and ulcerated.
Now, most of the herb sold is fake and is made with plastic.

For the convenience of customers, we offer Puncturevine caltrop fruit (Ji li) as the quick-dissolving granule made through modern technology.

[Directions]
Every sachet (1g) is equivalent to raw herb 5 grams.
The dosage is for adults, one sachet each time, twice time per day. **Recommend 60 sachets for one treatment period (30 days)**. Please put the granule into a cup, then put 50-100ml boiling water into the cup and stir it with spoon. You will get some herb tea, drink it when it is luke-warm. For children, the dosage should be reduced according to the weight.

Note:
If you do not know the herb property and function well, please consult our doctors online freely before ordering or fill the patient form: www.tcm-treat.com/diagnosisform.html then we can give you proper advice in 24 hours.

Pangolin Scales (Chuan Shan Jia)

Pangolin scales come from the pangolin (also called a scaly anteater), a toothless, scale-covered mammal native to Africa and China, belonging to the Manidae family. Pangolins actually resemble armadillos in appearance, with small heads, long, broad tails and well-developed claws. They have poor eyesight but extremely good hearing, and a formidable sense of smell. Pangolin scales are harvested from the pangolin through a process that involves boiling and parching.

In traditional Chinese medicine, pangolin scales are associated with the Liver and Stomach meridians, and are considered to have salty and slightly cold properties. The scales of the pangolin are used in conjunction with herbs to treat a host of conditions, including masses in the abdomen, amenorrhea, rheumatism, arthralgia, postpartum galactostasis, skin and external diseases, and scrofula (tuberculosis of lymph nodes, especially in the neck). Pangolin scales are also used to invigorate the blood and promote menstruation, promote lactation, reduce swelling and dispel pus.

Pangolin Animal Skins

7. **Hardness Dissipation Powder:** This product is manufactured in China from *Squama Manitis* or pangolin. The company, Herbs for Prostatitis, states that it will ship out of China. (<http://www.prostatitisremedies.com/hardness-dissipation-powder.htm>):

1-7. Question: How do you ship the medicine to us and how long we can receive our order?

Answer: We choose China Post to ship the medicine and most often within 14 - 28 days patients can receive the medicine. China Post has an online tracking site <http://intmail.183.com.cn/> We can provide the register number of the medicine parcel and you can check the status of it.

Will ship out of China

But please note you can only know the status within China. Once out of China you cannot know anything except you are sure it arrives at the destination country--because postal service of foreign countries do not have their responsibility to scan the bar code and input info regarding its status, we guess.
