PROOF

GOVERNOR TONY EVERS proposed a budget that was **BAD NEWS** for Wisconsin

\$1 billion tax hike on working families
and struggling main street businesses

An education budget that would **fail**
students and put their futures in jeopardy

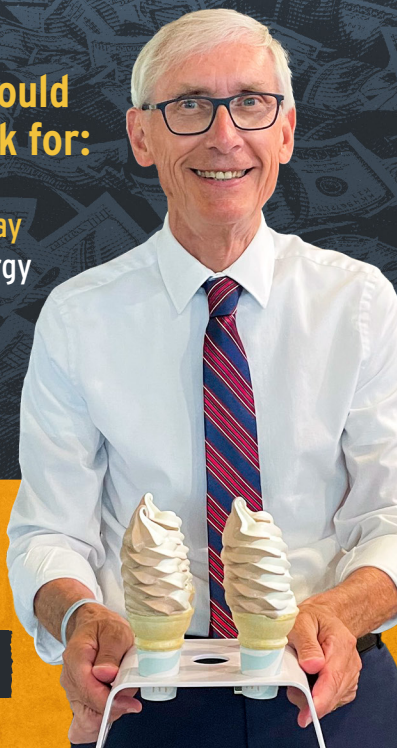

\$7 billion in **out-of-control spending**
for political pet projects

Taxpayers like **YOU** would
have been on the hook for:

- ✗ Higher prices on **everyday**
needs like food and energy
- ✗ Higher **income taxes**
- ✗ Higher **property taxes**
