

BIOTOC

PRODUCT SHEET

Overview:

BIOTOC is a new at-home prestige, K-beauty skincare line that fuses the best Old World practices with today's cutting-edge biotechnology. Originally only available to industry professionals, formulations of the BIOTOC line have been reimagined for the at-home market. The direct-to-consumer product line is (like its professional-grade counterpart) designed to provide a healthy and safe means to hydrate, firm and revitalize the skin. This latest BIOTOC iteration first launched to rave reviews in South Korea in June of 2020. The all natural home-care line will launch and be available for purchase in the U.S. market in late August of this year.

Manufacturer:

Dermafirm, Inc.

Global Headquarters:

GANGWON-DO, Republic of Korea

Dermafirm USA:

Boston, Massachusetts, United States

Category:

Cosmetology

Ingredients:

Dermal Filler Grade 3X Cross-Link Hyaluronic Acid
Capsulized Antioxidant ASTASOME™
Astaxanthin
Arginine
Alanine Lysine
Collagen (Tripeptide-29)
3 Peptide Complex
Ceramide NP
Niacinamide
Oleic Acid
Acetyl Hexapeptide-8
Copper Tripeptide-1
Palmitoyl Pentapeptide-4
Palmitoyl Hexapeptide-12
Phycosaccharide
Sodium Hyaluronate
Triglyceride
Adenosine
Aloe Barbadensis Leaf Powder
Beta-Glucan
Butyrospermum Parkii (Shea) Butter

Specialized Proprietary Dermafirm / BIOTOC Technologies:

DSC (Derma System Cell) Technology: increases nutrient effectiveness of skin penetration by atomizing active ingredients through microbial decomposition process.

TerraBiome: fermented, medicinal herb produced by DSC technology.

Elastic Liposome Technology: allows particles to be freely changed during the delivery, thus maximizing absorption into all skin types.

Dermafirm USA is the North American arm of Dermafirm, Inc., South Korean cosmeceutical company, known for its comprehensive research and development, as well as, the technology-driven, proprietary formulations behind their award-winning products.
