

art for kids

Even the youngest artist can decorate a golf ball!!! These custom golf balls make great Father's Day gifts!!

You only need two supplies:

- Golf balls
- Permanent markers

art for kids

How to do it:

1. Grab a golf ball. Grab a marker. Draw your own design on the golf ball. Easy, peasy!!

Additionally, you can download and print the presentation box pictured below. There are two versions—one for [two golf balls](#) and one for [three golf balls](#). The folding instructions are on the print out. The only other thing that you'll need to assemble the presentation box is either white glue or double-sided tape.

Hope Dad gets a hole in one with one of his decorated golf balls!!
